EIGHTH ANNUAL REPORT.

The past year has been one of continuous growth in all departments of the Library.

The total number of books in the Library at the commencement of the year was 65,846, and 5,499 volumes have since been added, making a total, after deducting all losses, of 70,796 volumes.

The issue of books in the circulating department has steadily increased during the past year at the rate of little more than ten per cent., so that the total number taken out during 1891 was 427,347, or, an increase of 39,867, the largest number ever issued by this Library in one year. It is satisfactory to observe that with the large additions made to the number of books in the Library, and the increase in the numbers issued, that the proportional demand for works of fiction steadily decreases as the following extract from the report of past years will show :—

	Central.	Western.	North.	Total including all the Branches.
1885.....	60·9.....	80·3.....	75·8.....	66·5
1886.....	56·8.....	78·9.....	76·3.....	64·4
1887.....	56·4.....	78·3.....	73·8.....	62·4
1888.....	53·5.....	75·0.....	72·5.....	59·1
1889.....	50·4.....	72·8.....	69·5.....	56·3
1890.....	49·5.....	73·0.....	68·1.....	55·4
1891.....	47·1.....	68·4.....	65·8.....	53·1

These figures amply justify the conclusions at which older Library Boards have arrived, that there is a progressive character in mental culture which is imparted by a taste for reading and which can be fostered by supplying freely the best literature.

In the month of October, the Board acting upon a special report of the Chief Librarian resolved to convert the upper portion of the Library building into a Museum. The Act of Parliament under which the Board

is organized recognized the value of such an institution, as a valuable educational adjunct to the Library, and the Board in carrying it into effect feel that the work is in harmony with the wishes of the citizens and the requirements of the city.

Owing to the necessity of providing a more suitable entrance to the Library building, and the fact that the Library Board decided to exercise their powers granted by Statute to create a Museum, and the rooms necessary for such an undertaking being at the disposal of the Board, a small outlay has been made in preparing the same for Museum purposes.

I may be permitted to express the hope that these special expenditures being now over, that the Museum will become a source from which able and energetic naturalists will go forth to increase and extend our knowledge, especially of the natural history and resources of Canada, and that it will serve the purpose of instruction, by guiding the mind of many a student to an appreciation of the still higher beauties of nature, and furnish food for the student of the animate and inanimate world as the Library does for the reader.

The month of July was marked by the closing of the North-Western Branch, at Brockton. The success of the larger and more attractive Reading-room and Branch on Dundas street had convinced the Board that the creation of small Branch Libraries was neither satisfactory to the citizens in the vicinity, advantageous to the Main Library, or, in the best interests of the city, and they therefore closed the North-Western Branch and transferred the ticket-holders to the Dundas street Branch.

Among the more important books added to the Library during the past year are the following :—

Sargent's *Silva of North America*, vols. 1-3 ; *Analectic Magazine*, 14 vols., 1813-1819 ; *Gibb and Skelton's Relics of the Royal House of Stuart* ; *Macgibbon and Ross's Architecture of Scotland*, 3 vols. ; *Foster's Alumni Oxonienses* ; *Foster's Index Ecclesiasticus* ; *Sander's Reichenbachia*, 2 vols. ; *Latrie's Trésor Chronologie* ; *Seeborn's History of British Birds*, 4 vols. ; *Billing's Antiquities of Scotland*, 4 vols. ; *Racinet's l'Ornement Polychrome*, 2 vols. ; *Streitenfeld's Reiche Sitz-*

Through the kindness of the New Zealand Government the name of this Library has been placed on the list of those to whom the Official Gazette, Departmental blue books and other Government publications will be sent.

The accounts of the Library have been duly audited, and statements of receipts and expenditure are appended.

It is most gratifying to know that increased interest is being taken by the public in the Library and Museum which is no doubt owing to the efforts of the Chief Librarian and his assistants ; and I take this opportunity of bearing testimony to the untiring efforts of the whole staff, and am much pleased to state that the services rendered by all have been most satisfactory during the past year.

R. A. PYNE, M.D.,

Chairman.
